

Please do this before entering finch workshop

This is how to download the **Bluebird connector**

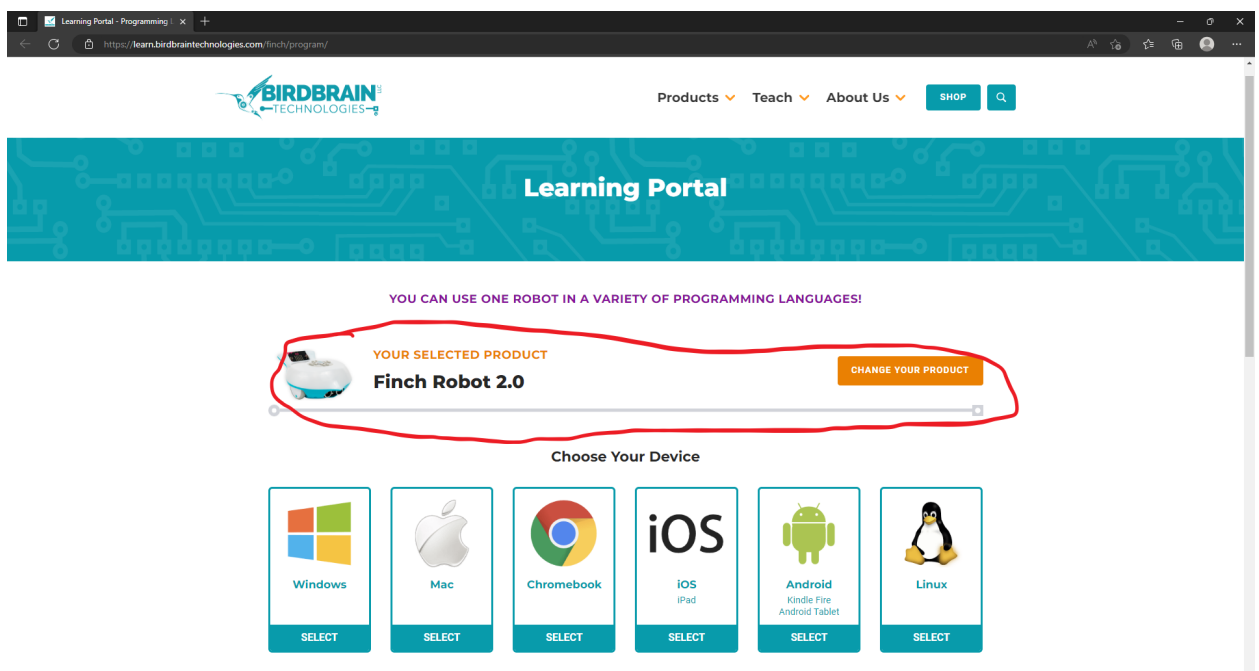

Note If : You should already have VS Studio Code installed or another Python editor

1. Go to <https://learn.birdbraintechnologies.com/finch/program/>

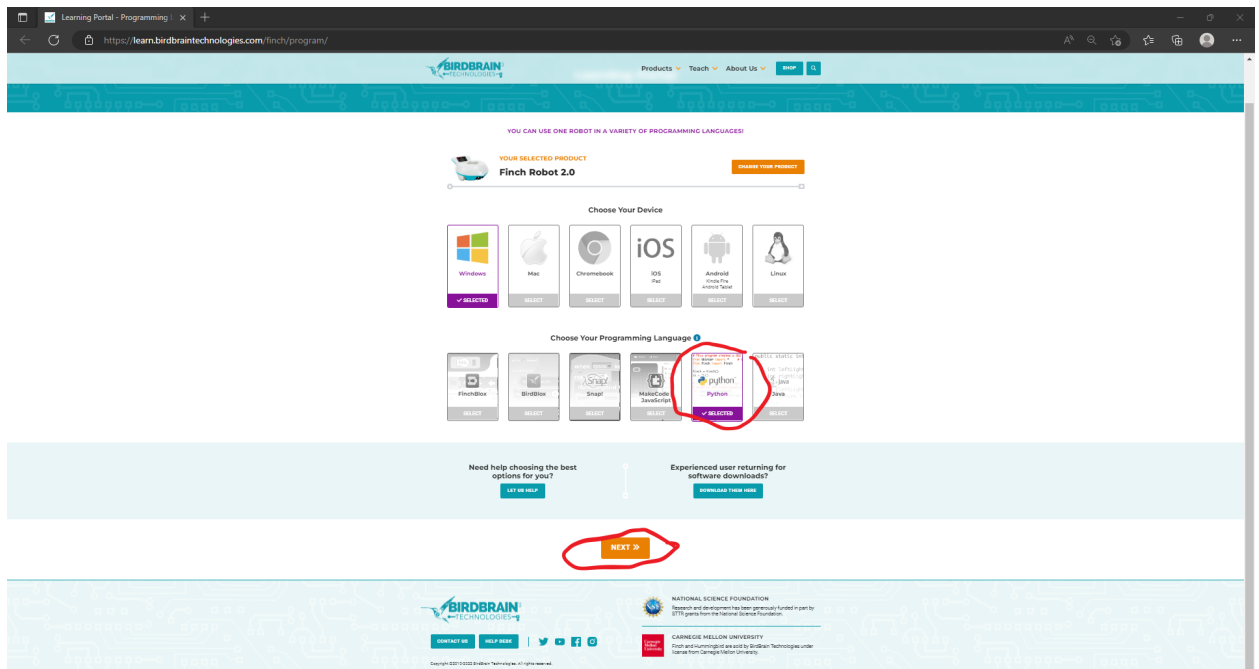

It should take you to this page.

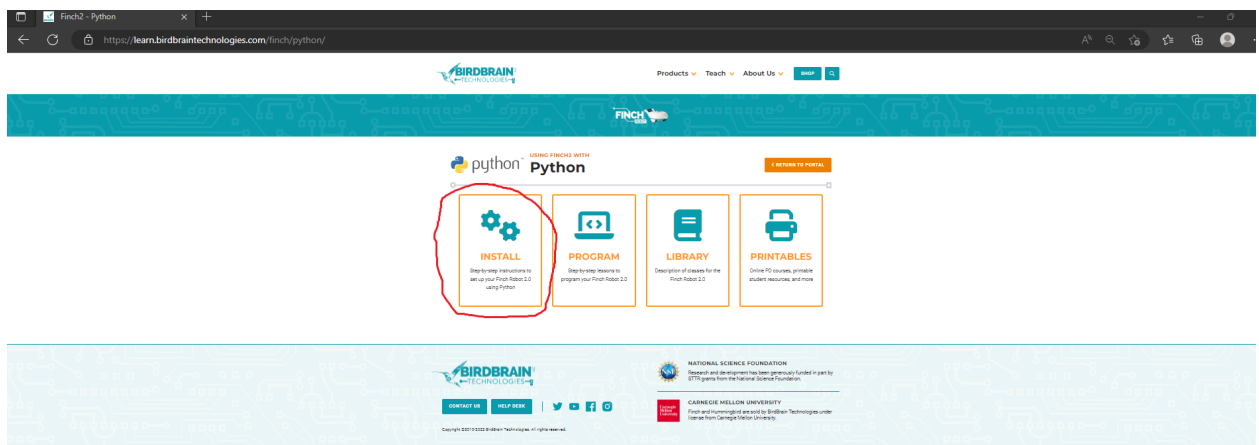

2. Make sure Finch Robot 2.0 is selected

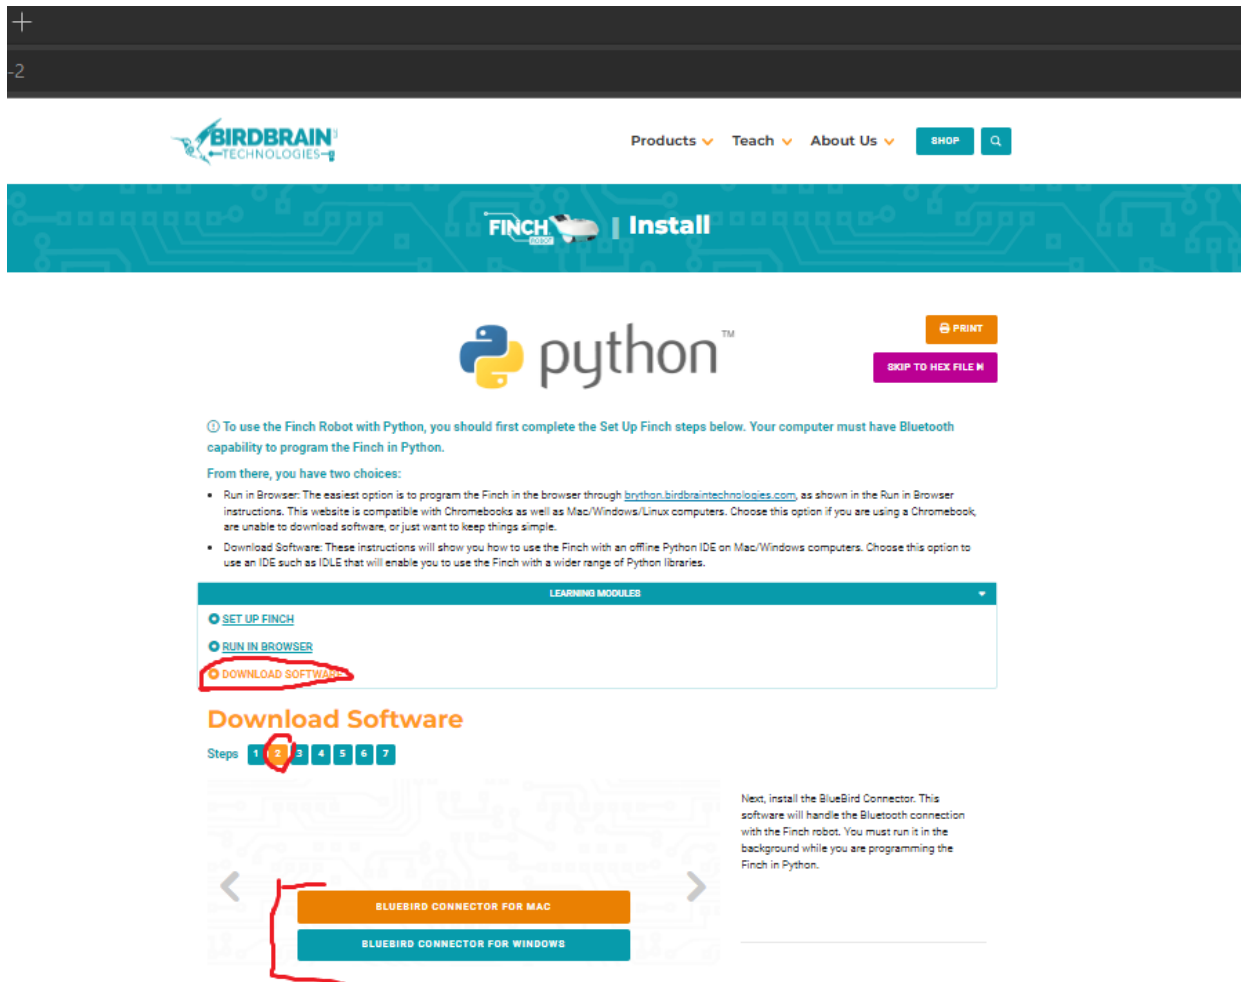

3. Select **YOUR** operating system and **Python**, then click **Next**

4. Select **Install**

5. Go to the **Download Software** learning module and select the **2nd tab** then select your operating system

The screenshot shows the Birdbrain Technologies website. At the top, there is a navigation bar with links for Products, Teach, About Us, and a SHOP button. Below this is a teal banner with the text 'FINCH | Install'. The main content area features the Python logo and a 'PRINT' button. A section titled 'Download Software' is highlighted with a red circle. This section includes a 'LEARNING MODULES' dropdown menu with options for 'SET UP FINCH', 'RUN IN BROWSER', and 'DOWNLOAD SOFTWARE'. The 'DOWNLOAD SOFTWARE' option is selected. Below this, there is a 'Steps' section with a progress indicator showing steps 1 through 7, with step 2 highlighted. The 'Download Software' section also includes a 'BLUEBIRD CONNECTOR FOR MAC' and 'BLUEBIRD CONNECTOR FOR WINDOWS' button, which is highlighted with a red circle. To the right of the button, there is a text box explaining the next steps: 'Next, install the BlueBird Connector. This software will handle the Bluetooth connection with the Finch robot. You must run it in the background while you are programming the Finch in Python.'

6. From here you will begin the download process for your operating system.
7. If you have never downloaded anything before **don't panic, just click I agree** until the program shows up on your desktop or your downloads folder. It will take a minute
